Jeffery Judson, the Dwarf. One of the most notable of dwarfs was Jeffery Hudson, who was introduced to Henrietta Maria, consort of Charles I., in a noble venison pie. "When the ple was opened," out stepped Jeffery in all the dignity of his eighteen inches and made a courtly obeisance to the astonished and delighted queen, begging to be taken into her service, a favor which was promptly granted.

Jeffery was a man of stout heart and adventurous spirit. He fought two duels, one with a turkeycock and the second with a Mr. Crofts, who faced the little man armed with a squirt and was forthwith shot dead. Twice Jeffery saw the inside of prison walls -once when he was captured by the French on his way across the channel and again when he was captured by Barbary corsairs-and to crown his career of adventure he was accused of being mixed up in the popish plot and ended his rather troublous days in the Gate House in 1682.

Women and Tobacco. Master Prynne, the weak, well mean ing Puritan who in 1633 wrote an attack upon the stage, tells us that in his day tobacco pipes were offered to ladies at the theater in lieu of apples between the acts. A French traveler, M. Torevin de Rochefort, who published his journal in 1677, confirms this by telling us that he found smoking a general custom in England, as well among women as among men. Both sexes, he adds, held that life without tobacco would be intolerable because, they say, it dissipates the evil humors of the brain."

When ladies stopped smoking they took to snur. Women of quality about a century ago would not stir without their snuffboxes, beautifully enameled receptacles of perfumed mild rappee. Lord Bolingbroke said of Queen Anne and her grace of Marlborough: "The nation is governed by a pair of snuffers. No wonder the light of its glory is extinguished!"-London Standard.

How the Nutmeg Grows. "A nutmeg tree," said the gardener, "looks like a laurel. The nutmeg tree begins to bear at the age of ten years. It keeps on bearing until it is ninety. The fruit resembles an apricot, and when ripe it bursts open, showing at its heart the black nutmeg inclosed in a network of scarlet. The nutmeg after plucking must be dried. It is dried over a slow fire, and the process is te dious. It often occupies two months Before shipping the nutmegs are always steeped in sea water and lime This is to protect them from insects They have nothing but insects to fear. In an insect proof condition they keep —well, they keep practically forever."— Minneapolis Journal.

Warsaw's "Social Glass."

The town of Warsaw, Russia, may be called the milk producers' Eden. There is probably nowhere such a tle frequented. On the other hand, the public frequents the various dairies in great numbers in order to chat with friends or read the newspapers to the accompaniment of black or white coffee or a glass of cold or warm milk. To close a bargain or to talk business the milk saloon is resorted to. Chess and billiards are allowed to be played in these recognized places of public re-

DEPOT QUARTERMASTER'S OFFICE, Constantine the younger was killed in the year 340, when he fell from his sad-dle. It is true, nevertheless, that Sidoniu-Apollinaris used the word that unmistakably refers to the saddletree.
